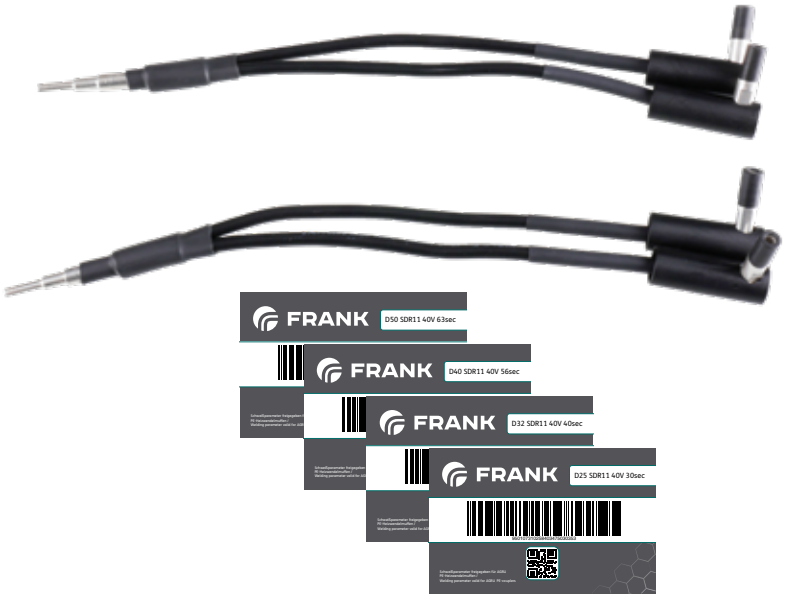
Product Information

Y-Adapter Set

Description

- Parallel welding of two E-couplers of a pipe joint
- Tested and approved for AGRU E-couplers
- Suitable for all electrofusion welding units from the FRANK portfolio
- Article number: 600 87 1526



Technical data

- Welding voltage: 8 - 48 V
- Welding current: max. 40 A
- Connection: 4 mm (90°)
- Cable length: 310 mm

Scope of delivery

- 2 Y-Adapter cables
- Welding cards with welding code for dimensions: d25 SDR11, d32 SDR11, d40 SDR11, d50 SDR11

Welding work instructions

- Prepare and carry out welding in accordance with DVS guidelines (DVS 2207-1).
- Connect the Y-Adapter in parallel to the sockets.
- Scan the welding code from the welding card (not from the E-coupler).
- Adhere to welding parameters and ensure documentation.
